I'm a concerned citizen who lives in Los Angeles, on Van Ness Avenue, just south of Pico Boulevard. Since July 23, 2010, I have had to listen to continuous loud generator noise coming from [REDACTED] I work at night, a graveyard shift, and sleep during the daytime. It is certain that other residents work during the daytime, but who sleep at night also must deal with this.

On at least three occasions, I have seen or have been informed by at least one neighbor that the LAPD have notified the owners at [REDACTED] yet the problem of noisy generator persists. Since the LAPD have come and gone, yet the problem persists, it must be the LAPD lack the authority to stop this. This being said, I believe the solution to resolve this is beyond the scope of the LAPD.

Solutions needed ASAP.....
